Solar and Lunar Eclipses in the year 1819.

April 10th—Moon eclipsed, at 8th hour 12 m. in the morning, to us invisible.

April 24th—Sun eclipsed, at 6th hour, 55 minutes in the morning, to us invisible

September 19th—Sun eclipsed, at 7th hour, 59 minutes in the morning, to us invisible.

October 3d—Moon eclipsed, at 10th hour, 29 minutes in the morning, to us invisible.

N B. It is very remarkable, that the four eclipses this year, all happen in the morning, within the limits of 3 hours, 34 minutes, of the same time of day ! ! ! What will be the event of this phenominon, perhaps will not be safe for the Astrologer to tell. However, on that account, I think he may safely wish for a good sale for the *Almanacks*, and great advantage to the purchaser.

Annual subscribers pay one dollar annually: life subscribers, ten dollars at one time. Those under thirty years of age, are juvenile, and those over, are honorary members. The officers of town societies are taken from the juvenile members: those of the general Society, from either. The object of this society is to aid the destitute parts of this State, in supporting the preaching of the gospel. Between two and three thousand dollars have already been subscribed to this object: and the business of organizing branch societies, in towns, is progressing.

The Vermont Bible Society was organized at Rutland, on the 7th day of October, 1812, pursuant to a resolve of the General Convention, at their meeting at Westminster, in September preceding.

From morn to eve his solitary task.

Hear the words of Prudence, give heed unto her counsels, and store them in thy heart: her maxims are universal, and all the virtues lean upon her: she is the guide and mistress of human life.

JANUARY hath 31 days, 1822.

May every return of the year prove a blessing;
May it find you contented and gaily serene.
The love of your friends and your brothers possessing,
May your journey through life be a gay gilded dream.

On hazel boughs the clusters hang embrown'd,
And with the sportsman's war the new-shorn fields resound.

GOVERNMENT OF THE UNITED STATES.

THE PRESIDENT.

He must be 35 years of age. 14 years resident of the United States, a natural born citizen, or a citizen at the time of the adoption of the constitution. In case of his removal, death, resignation, or inability, the duties of his office devolve on the Vice President; and by act of 1st March, 1792, in case of removal, death, resignation or inability, both of President and Vice President, the president of the Senate protempore; and in case there shall be no president of the Senate, then the Speaker of the House of Representatives, for the time being, is to act as President.

The President's official household consists of himself and private Secretary, whose salary is paid by himself.—The present Secretary is J. J. Monroe, Esq.

The legal title of this officer is the *President of the United States;* and he is, by the constitution, commander in chief of the Army and Navy of the United States, and of Militia of the several States, when called into the service of the United States.

The President receives 25,000 dollars per annum salary, which cannot be increased or diminished, during the term for which he is elected. His salary was fixed by act of 18th February, 1793.

He, as well as the Vice President, is elected by electors in the several States, who are chosen as the Legislatures of the respective States may provide. His period of service is four years, and there is no restriction as to his re-election; but there is no instance of any President's having served for a longer time than eight years. The following are the names of the Presidents of the United States under the present form of government, and the dates at which they were sworn into office.

GEORGE WASHINGTON,	1st term, 4th March, 1789.
	2d term, 4th March, 1793.
JOHN ADAMS,	1st term, 4th March, 1797.
THOMAS JEFFERSON,	1st term, 4th March, 1801.

Under the present constitution, the seat of the general government was, in the first instance New-York, then Philadelphia, and finally Washington City; to which the public offices were removed in the year 1800. Congress held its first session in the latter place, on the 17th day of November, of that year.

VICE PRESIDENT.

The Vice President of the United States is elected in the same manner as President. He is ex-officio, President of the Senate; and, as President of the Senate, in virtue of an act the 8th of May, 1792, one of the commissioners of the Sinking Fund. He holds his office at the will of the President.

SECRETARY OF THE TREASURY.

The office of Secretary of the Treasury was created by act of the 2d of September, 1789. He superintends all the fiscal concerns of the government, and upon his own responsibility, recommends to congress measures for im-

proving the condition of the revenue. He holds his office at the will of the President; and, by usage, is a member of the Cabinet.

SECRETARY OF WAR.

The War Department was erected by the act of 7th August, 1789. The Secretary of War, at first had the superintendance of Naval affairs. PAY OF MEMBERS OF CONGRESS.

From the first Congress in 1789, inclusive, until the 4th of March, 1795, Senators and Representatives received each six dollars per diem, and six dollars for every twenty miles travel. From the 4th of March, 1795, to the 4th March, 1796, Senators received 7 dollars per diem, and 7 dollars for every twenty miles travel, and Representatives only 6 dollars. From the 4th March, 1796, until the 4th Dec. 1815, the per diem was 6 D. & the mileage 6 D. to Senators & Representatives. From the 4th of Dec. 1815, until the 4th March, 1817, each Senator & Representative received 1500 dollars per annum, with a proportional deduction for absence from any cause but sickness. The President of the Senate pro tempore, and Speaker of the House, 3,000 dollars, per annum each. From the 4th of March, 1817, the compensation to members of both branches of Congress has been 8 dollars per diem, and 8 dollars for every twenty miles travel.

JUDICIARY.

[The Judicial power of The United States is vested in one Supreme Court, & in such inferior Courts as Congress, from time to time establish. The present Judicial establishment of the United States consists of a Supreme Court, of twenty eight District Courts, and seven Circuit Courts;

which are thus organized: the Supreme Court is composed of one Chief Justice and six Associate Justices, who hold a Court in the city of Washington, annually: besides which each of these Justices attends in a certain Circuit, comprising two or more Districts, appropriated to each, and, together with the Judge of the District, compose a Circuit Court, which is holden in each district of the Circuit. The District Courts are held, respectively, by the District Judge alone. Appeals are allowed from the District to the Circuit Courts, and from the Circuit to the Supreme Court: and in some cases, where the inconvenience of attending the Court by a Justice of the Supreme Court is very great, the District Courts are invested with Circuit Court powers. Each State is one District, for the purpose of holding District and Circuit Courts therein, with the exception of New-York, Pennsylvania, Virginia, and Tennessee, each of which is divided into two Districts.—There are, besides Territorial Courts, which are temporary, and lose that character whenever a Territory becomes a State. In addition to the District Court for the District of Columbia, there is a Circuit Court for that District, which exercises, under the authority of Congress, similar common law and equity jurisdiction as the County Courts of Maryland and Virginia. Each Court has a Clerk, a Public Attorney or Prosecutor, and a Marshal; all of whom are appointed by the Executive of the United States, with the exception of the Clerks, who are appointed by the Courts. The compensation of the Judges is fixed by law; that of the Clerks, Attornies and Marshals, consists of fees, and, in a few instances, as it regards Attorneys and Marshals, of a yearly sum of about 200 dollars. It is very difficult to ascertain the amount per annum of the fees received in each case, as the payment of them is frequently procrastinated, and in some cases they are entirely lost.]

The Cadets are limited to two hundred and fifty in number: They may be attached, at the discretion of the President of the United States, as students to the Military Academy, and become subject to its regulations: They are arranged into companies of non-commissioned officers and privates, for the purposes of Military instruction; there are four musicians to each company; and the corps is trained and taught all the duties of a private, non-commissioned officer, and officer; is encamped at least three months of each year, and instructed in all the duties incident to a regular camp. Candidates for Cadets must not be under fourteen, nor above twenty one years of age; and each Cadet, previously to his appointment by the President, must be versed in reading, writing, and arithmetic, and must sign articles, with the consent of his parent or guardian, thereby engaging to serve five years, unless sooner discharged. NAVAL ESTABLISHMENT.

The naval establishment of the United States consists of the Navy, properly so called, and of the Marine corps, the germs of which are to be found in the ordinances of the Revolutionary Congress, as far back as 1775. A Resolution of Congress, of the 3d of March, 1819, prescribes the manner of naming the vessels of the Navy: They are to be named by the Secretary of the Navy, under the direction of the President—the first class, after the States of the Union; second class, after the rivers; third class, after the principal cities and towns; and no two vessels are to bear the same name. The mode adopted for deciding on these names, is by lot. The third epoch of the American Navy may be reckoned from the 18th of June, 1812, until the

year 1815; which although short in point of time, was full and resplendant in glorious achievements. Combatting in every sea with the veteran Navy of England, in victory, which was frequent, or in defeat, which was seldom, the skill, the hardihood, the inextinguishable valour, of the American character, were conspicuous, challenging the attention and acclamation of the impartial world, and wringing from Great Britain herself a reluctant acknowledgement of the respectable naval power of the United States. The Marine corps has earned its due share of glory. This branch of the Naval Establishment is fixed to a state of peace, by the Act of the 3d of March, 1817. The securing of timber for the use of the Navy has been attended to by Congress; Navy yards and docks have been added to and improved; and, as occasion has required, small vessels of war have been constructed or purchased, for the security of the revenue, or other objects.

Such persons as are convicted before the Supreme court, of crimes, described in "the act of punishment of certain capital crimes, and other high crimes and misdemeanors," the punishment of which was cropping, pillory, or whipping;—and those who are convicted by the Supreme or County courts, of crimes not described in the last mentioned act, and where corporal punishment was formerly inflicted may now be sentenced to the State's Prison, for a term not exceeding three years, instead of the corporal punishment. He may have power to appoint and remove a keeper, servants and guards. It is the duty of the Superintendant to purchase all the provisions and materials for manufacturing, and all other articles necessary for the prison, and to sell all manufactures and other articles proper to be sold, and keep an exact account thereof, and of all the expenses, and make report to the Legislature.
